

Why a medical savings card? Is it a valued, quality health benefit to me?

Without ChiroCare, you and your family incur many health expenses for routine essential care that is provided by Chiropractors. Medical savings/discount cards enable your family to get that necessary care at substantial savings from providers that meet rigid quality standards.

Even with health insurance, you and your family incur health expenses that are either not covered by your insurance or are limited by your insurance. The most common are Chiropractic. Medical savings/discount cards enable your family to get that non-covered and necessary care at substantial savings from high quality providers. ChiroCare

More patients prefer improved health benefits from chiropractic health care services. ChiroCare recognizes your commitment to improved health and well-being through chiropractic. Your Chiropractor, in partnership with your statewide Chiropractic Network, is providing ChiroCare to you.

ChiroCare Benefits

ChiroCare is not insurance. It cannot be used in conjunction with your traditional insurance plans. The program provides your immediate family with significant discounts on health and wellness services. There is no limit to how often your family may use ChiroCare. There are no forms to complete, no pre-existing conditions and no waiting for discounts. Your family savings can total hundreds of dollars a year. The card provides savings even if you have health insurance or if Chiropractic is not covered under your health plan.

ChiroCare: “It’s not insurance- But you can’t afford to be without it.”

How it Works

Saving with ChiroCare is easy. You will receive cash discounts on chiropractic with the **Select Card**. Should you have any questions or need help locating a participating provider, customer service is a toll-free call away at 1-866-209-0070. Select a provider, schedule a visit, present your ChiroCare card and receive your discount for services. It’s that easy!
